

Antarctic Fast Ice Watch

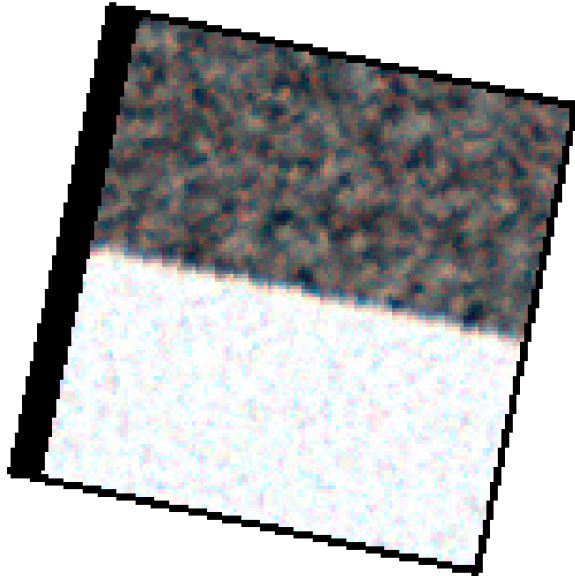

Davis | 2021-10-24

PRIMARY PRODUCT | FAST-ICE EXTENT AND CHANGE

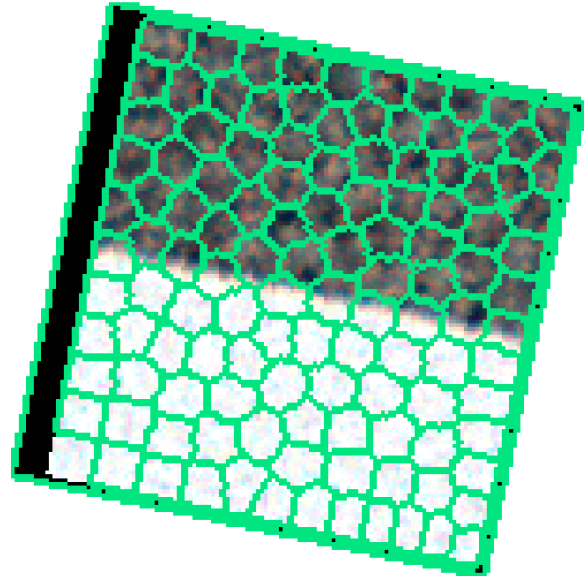

SYNTHETIC TEST DATA. This bulletin tests the software and layout; it describes no observed Davis conditions.

Davis | 2021-10-10 to 2021-10-22 | SYNTHETIC TEST DATA

a) composite SAR

b) segmentation (not ice classes)

North aligned at centre (77.97°E). RESEARCH DEMONSTRATION | NOT FOR OPERATIONAL USE

Coverage and quality

Segmentation pixel spacing: 200×200 m; valid texture fraction 88.5%. Acquisition baseline: 12.0 days.

No reviewed land/ice-shelf mask supplied. Segmentation includes unmasked surfaces. Not validated for operational use SLIC differs from the supplied SAM research workflow

ADDITIONAL PRODUCT | SWOT FREEBOARD

Not yet processed in this primary-product milestone. No SWOT observations or freeboard values are represented here.
